#### **WORK EXPERIENCE**

# **Squareone International LLC**

Founder & Lead Product Designer

2023 - Present | Remote

Built a design consultancy delivering UI/UX for startups and apps. Produced and managed digital products using Al-enhanced design flows. Oversaw brand systems, stakeholder alignment, and global team coordination.

#### Yiya Kude/TravSim

UI/UX Designer 2021 - 2023 | Remote

At Yiya Kude my work consisted of managing graphic production across various mediums, including print, interactive, and digital design. My role involved collaborating closely with clients to understand their needs and delivering visually stunning designs that resonate with target audiences.

#### Soft Skills

Remote Collaboration, Presentation, Documentation, Project Scoping

#### **Design Systems**

Creation & Maintenance, Cross-Platform Guidelines

# **Development Knowledge**

HTML/CSS Basics, Developer Handoff (Zeplin, Figma Dev Mode)

# **SELECTED PROJECTS**

## **Babylon Balance**

Founder & Lead Product Designer

An Adalo built no-code financial literacy app inspired by The Richest Man in Babylon, offering Al-driven spending insights. Designed all UI/UX across 25+ screens, including income tracking, expense logging, and personalized financial advice. Integrated GPT-based suggestions for budgeting behavior improvement.

Developed freemium features and premium video content flow. Structured the database in Adalo and led QA testing across mobile platforms

## **PRecovery**

Client-Focused UI/UX Overhaul

Habit-tracking app focused on addiction recovery with daily logs and relapse tracking.

Redesigned dashboard, progress tracker, and feedback flows. Incorporated emotion-focused design, calming color systems, and structured iconography. Managed client collaboration and multiple revision cycles remotely.

# **Piggy for YNAB**

UX/UI Redesign

Reimagined the budgeting experience for kids using a YNAB-compatible concept. Transformed rough client vision into a clear UX flow and interactive prototype. Developed user personas, wireframes, and polished UI in Figma. Created a narrative-led onboarding experience that increased conceptual clarity.
